

Dear Sir or Madam,

By writing this letter, Tietoevry wants to recommend Levko Kravchuk as well as confirm that he worked in our company as a SW developer / DevOps engineer. For the past year Levko has been working in one of our telecom projects and was responsible for managing related service infrastructure, which included different aspects of integration, development and maintenance. Levko also worked closely with other engineering teams within the project to ensure that the service ran smoothly and necessary updates were deployed on time. His technical background, attention to detail and dedication to providing excellent customer service played an important part in project success and stability. Levko was instrumental in troubleshooting and resolving complex technical issues quickly.

Levko is a great team player and collaborator, and he always had the best interests of the project and the company at heart. Worth also highlighting his open and positive attitude.

We highly recommend Levko for any job that requires SW engineering skills. He will be a great asset to any team and will make a significant contribution to any organization.
