Technical Summary

Network & Security

Network protocols: Vlan, Ethernet, RSTP, EtherChannels (LACP), DHCP, DHCPv6, IPv6, DNS, SSH, SMTP, IMAP, POP3, DMVPN, VPN: Highly Specialized
Tenable.sc, Nessus scanner, NetCat, Wireshark, Endpoint Security, OSPF: Intermediate
Programming Languages: Python and Bash: Intermediate

DevOps & Monitoring

Docker, Ansible, Nginx, Apache, Tomcat, Grafana, Nagios, Jenkins, Gerrit, Puppet, Prometheus, ESXi.: Intermediate
Nagios, Prometheus with Grafana, Observium: Intermediate
Git, GitHub, Gerrit, GitLab: Intermediate

Operating Systems & Other

RedHat, CentOS Stream, Ubuntu/Debian, Rocky Linux: Highly Specialized
MacOS, FreeBSD: Intermediate
Clients Windows XP/7/8/8.1/10/11; Windows Server 2003/2008r2/2012/2016: Intermediate
Jira, JQL, Confluence, RCA, ITIL,: Intermediate

WORK EXPERIENCE

May 2025 -
Sep 2025

LiveOps & Linux Administrator at Netskrt 📍 Vancouver, BC, Canada

- Installed and configured RAID on Linux servers, troubleshooting and resolving technical issues.
- Provisioned Linux configurations using Ansible.
- Configured UFW firewall, applied system updates, and tuned the system using the 'tuned' utility to enhance performance and security.
- Planned and evaluated a file integrity monitoring solution with an inotify-based tool to strengthen system security.
- Monitored Linux servers and CDN performance to ensure smooth video streaming, using Prometheus, Grafana, and Zabbix.
- Optimized content delivery via CDN, improving video streaming performance and reducing latency.
- Worked with Jira, JQL, and CQL to create and update documentation.
- Configured and debugged networks using curl and TCPDUMP; maintained NetBox and supported DNS services.
- Installed and configured Kubernetes; basic knowledge of Kubernetes concepts.

Jan 2025 -
March 2025

An internship role: Cyber Security Researcher at mThreat 📍 Greater Vancouver, BC, Canada

- Main duties: Investigated email headers, analyzed network anomalies, managed IP address reputation, block botnets.
- Used Regex to ban botnets, added Regex to an anti-spam filter, and conducted WHOIS and DNS investigations.

Certificates

- Cisco Ethical Hacker Course Completion
- VanLUG Certificate of Excellence 2024
- Certificate of Volunteer at B|SIDES 2024. Cyber Security Conference. Review Recommendation Letter.
- Certificate of Criminal Record: CLEARED
- CS50's Introduction to Cybersecurity by Harvard University
- Vancouver Linux User Group (VanLUG) Certificate about an Open Source Advocacy

• Additional certificates: on my LinkedIn

Volunteer Experience

- Oct 2025 - Present Duties: Exam/Certificate preparations ISACA Vancouver Chapter
- Oct 2025 Duties: Event support at BSides Victoria BSides Vancouver Island
- May 2024 Duties: Event support, Users support, and Workshops Attendee BSides Vancouver BSides Vancouver
- Jun 2023 - Jan 2024 Duties: Event support at Google I/O Extended - Vancouver
- Jun 2023 - Apr 2024 Duties: Technical translator (Localization) Rocky Linux guides into Ukrainian language at Rocky Linux Community. Remote

Dec 2020 - Jun 2023

DevOps & System Administrator at TietoEvyry

- 📍 Lviv, Ukraine
- Managed and maintained Linux servers and systems, including troubleshooting and resolving technical issues.
 - Configured and monitored network infrastructure, ensuring up-time and reliability.
 - Conducted regular maintenance and updates to optimize system performance and security.
 - Collaborated with cross-functional teams to develop and implement new technology solutions.
 - Provided technical support and training to team members on Linux systems and network operations.
 - Monitored the performance and availability of Tenable.sc and Nessus scanners and implemented measures to ensure their reliability.
 - Tech stack: Tenable.sc, Nessus scanner, Apache, SSL, Loki, Docker, Nagios, Python, Bash, API, LDAP.
 - Business improvement: I developed scripts and automation to enhance service and support for users.

Jul 2020 - Nov 2020

Tier 1,2 Support Engineer & System Administrator at Advanced Internet Technology (AIT)

- 📍 Lviv, Ukraine; (Fayetteville, NC, USA (remote))
- Maintained DNS servers and relative DNS records, debugged DNS, and troubleshoot customer requests.
 - Maintained and configured Cpanel(s), supported and deployed websites to Cpanel(s) via Gitlab.
 - Assisted with the implementation of good security practices. Automated provision VMs via ESXi. SSL&TLS configuration with Installation.

Mar 2018 - Mar 2020

DevOps Engineer at Tier 1 team at SoftServe

- 📍 Lviv, Ukraine
- Collaborated with developers and other Tier teams to troubleshoot and resolve issues related to the project.
 - Proficient with: Git and Jenkins to automate routine tasks. Utilized a load balancer for blue-green deployment.
 - Monitored the functioning and accessibility of systems and software and took actions to ensure that they remained dependable.
 - Utilized: Jira Query Language to investigate issues, provide RCA, and create new documents to prevent future problems. Adhering to ITIL rules is crucial for the business.

Jun 2012 - Jun 2017

Network & System Administrator at Attorneys at Law "Pavlenko & Partners"

- 📍 Lviv, Ukraine
- Installed and maintained SCS, LAN, Network, and Endpoint security.(Symantec Endpoint Security)
 - Full-stack support of clients OS: Windows XP/7/8/10, macOS. Servers OS: Windows 2008r2, AD, WSUS, GPO, Mikrotik, UTM, mail servers, Cisco Meraki SD-WAN, Wireless, QoS, Group Policy, IDS/IPS.
 - Business improvement: Implement best security practices and technologies, Deployed scripts for install user soft, auto-configure VPN.

Publications & conference presentations

- How to apply full bogon “Martians networks” list to MIKROTIK
- Cisco Meraki & WiFi SSID Unicode name, Funny technical configuration
- How wireless networks can be dangerous for Apple products with Flipper Zero at (MDOYVR2024 Conference)
- Testing WiFi security by Flipper zero, debug by ”Net Spot”, and Cisco Meraki MX68W
- Vancouver Linux User Group (Van LUG). Please review the presentation slides and locate the event on March 9, 2024.
- DefCon(DC604) meetup and presentation about DNS, Passive DNS, and DNS tunnels at Cisco office
- How DHCP Works, Linux Boot Process, and How to Use Multiple Linux Distributions via Network

Sep 2018 - Jan 2023

PART TIME JOB: IT support (Sys.Admin) & Consultant at Honorary Consulate of the Federal Republic of Germany in Lviv, UA📍 Lviv, Ukraine

- Main duties: provide support for users, Maintain Windows 10, 11, O365, Enterprise Security, VM Ware ESXi, Firewall, IDS/IPS, Wi-Fi.

Aug 2008 - Mar 2015

OurLan Internet Service Provider📍 Lviv, Ukraine

- Installed, maintained, administered LAN, MAN, and WAN of ISP network.
- Managed smart switches, routers, and billing.
- Installed, maintained, and administered fiber optic cables, UTP/STP cables, structured cabling systems (SCS), and mounted servers/switches into racks.
- Troubleshooting Internet Issues, Customers SUPPORT.

🎓 EDUCATION

2025 - 2025

Workshop: DevOps Roadshow 📍 Victoria, BC, Canada
Red Hat OpenShift

- Comprehensive understanding of networking fundamentals, IP connectivity, subnetting, switching, routing, wireless configuration, network security, and automation.
- Developed DevSecOps workflows integrated with GitOps & SonarCube.
- Implemented security best practices including software supply chain security, secure storage in trusted registries, and secure deployments to clusters with advanced monitoring and alerting.
- Explored and applied software supply chain security measures and secured application storage in trusted registries.

2024 - 2024

CCNA 📍 Cisco Systems

Cisco Certified Network Associate

- Completed comprehensive training in networking fundamentals, IP connectivity, subnetting, switching and routing, wireless configuration, network security, and automation.

2023 - 2023

Workshop 📍 Vancouver, BC, Canada
ITSM Ansible Automation by Event-Driven Ansible

- Develop Rulebooks, configure Service Now, and automate the ticket process, i.e., automatically solving issues and closing tickets. CI/CD Ansible Automation

2017 - 2017

softserve

Certificate 📍 Lviv, Ukraine

SoftServe IT Academy

DevOps Foundation Course

- Installed, developed & maintained java application according to CI/CD practices. Tested it via Locust and deployed it on AWS EC2 instances.
- Tech stack: Linux OS, Version Control System, Networking basics, Web Scripting, Databases (SQL, NoSQL), Virtualization, Tomcat, Docker, Cloud computing, Jenkins, Monitoring, Locust, AWS.

Degree: Certificate

2016-2019

Diploma 📍 Lviv, Ukraine

IT Academy STEP

Network & Cybersecurity

- Cisco ITEl + Hardware Fundamentals of Operating Systems
- C++ Programming Language
- Windows 10 Configuration
- LAN Switching, Basic
- LAN Switching, Advanced
- Structured Cabling Systems
- IP Routing, Basic
- IP Routing, Advanced
- TCP/IP Application Protocols and Services
- Windows Server 2019 Administration
- Networks and Systems Security
- Linux System Administration
- Linux Network Administration
- Cisco CCNA1 Exploration
- Network Fundamentals
- Cisco CCNA2 Exploration
- Routing Protocols and Concepts
- Cisco CCNA3 Exploration
- LAN Switching and Wireless
- Cisco CCNA4 Exploration
- Accessing the WAN
- Cisco Certified Network Professional

Degree: Diploma

2001-2004

Higher Vocational College
Auto Mechanic

📍 Lviv, Ukraine
