

Volunteer Thanks and confirmation for Levko Kravchuk

To Whom It May Concern:

BSides Vancouver is an annual information security, privacy and technology conference run by the Mainland Advanced Research Society. The BSides Vancouver Security Conference is a not-for-profit volunteer-run event that has been growing since 2012 and relies heavily on the local tech community to ensure its success. This year at BSides Vancouver 2024 we had over 600 attendees, 42 speakers over four tracks and we could not have done so without the help from our volunteers.

On behalf of Mainland Advanced Research Society and BSides Vancouver, we would like to thank Levko Kravchuk for all your hard work put forth during the BSides Vancouver 2024 conference. Please know that your service was greatly appreciated, as it was absolutely essential to the success of our conference. We hope you also enjoyed the talks and networking with fellow professionals, and look forward to seeing you participate in upcoming community events and future BSides.

Please note that we have recorded you working a total of 20 volunteer hours. Please feel free to use this letter as verification of hours volunteered.

If you have any further questions, please do not hesitate to contact me.

A handwritten signature in black ink, appearing to read 'Darren', is located below the text. The signature is stylized with a long, sweeping horizontal line extending to the right.
